*SFX: Hear the hospital noises and a heart monitor. Crying fading out.*

VO:

Sophia's dose of methadone is finally kicking in. She's only a few days old – and going through detox.

Her mother used drugs while pregnant. Pain killers. She didn't think she was addicted because they were prescribed . . . unfortunately baby Sophia (*hear a cry*) is now suffering from drug withdrawal.

This is an epidemic that you can stop. If you know someone taking pain killers while pregnant - PLEASE - urge her to seek help.
